RUSSIA FAVORS SCRAPPING WAR MACHINERY

SAYS IT'S BEST TO GUARANTEE AGAINST ATTACK

RUSSIA FORCES WAY INTO SPOT-LIGHT AT DISARMAMENT PARLEY

SEEK VOTE TO ABOLISH ARMIES, NAVIES, WARSHIPS, ETC.

By HENRY WOOD
(United Press Staff Correspondent)
Geneva, Nov. 30.—Russia forced her way into the spotlight at the opening meeting of a preparatory disarmament commission today with a demand for immediate and complete disarmament or destruction of all military men and materials.

"That is the best way to guarantee nations against attack," explained Maxim M. Litvinoff, head of the delegation. His English wife, Ivy—the only woman delegate—nodded energetic approval.

Litvinoff demanded that a general disarmament commission meet not later than March, 1928, and vote to abolish immediately armies, navies, ministers of war, and marine, warships, fighting airplanes, artillery—everything that might be used for attack.

It would not be a bad idea, either, he suggested as the representative of Bolshevism, to give employees control over chemical factories so they could see no poison gases or other chemicals of war were made. He had proposed before that all formal war material factories be dismantled.

What several years ago might have been a sensational announcement was listened to with polite but easily controlled interest by delegates of 23 nations. The American minister to Switzerland, Hugh R. Wilson, was among them.

The commission, formed by the League of Nations, after repeated failures to get started on the direct road to disarmament, had decided to try a more certain roundabout way. It met today planning formation of a special commission to find what sort of treaties could be negotiated under which nations would guarantee to defend each other against attack. Such treaties, it was argued, would put Europe in a frame of mind that would permit her statesmen to reduce their heavy armaments.

But Litvinoff, on his way from Moscow, had let it be known that he was going to start something, and had said he would demand complete disarmament at once.

British, French and Italian delegates—it is understood with American support—had hoped it would be possible to head off Litvinoff. But Count Von Bernstorff, Germany, whose recall as wartime ambassador to Washington was demanded by President Wilson, came to the Russian's aid.

Yonkheer Loudon, Holland, presiding, no sooner had pointed out the desirability of creating a security commission than Bernstorff rose and suggested that Russia was attending the conference for the first time. It would be well, he said, to discuss the draft of a disarmament project submitted at last spring's meeting by sub-committees.

Litvinoff rose to say he, too, thought that the best plan—and then launched into his speech. He spoke in English.

Reading from a typewritten manuscript, Litvinoff reviewed the disarmament situation during the last seven years. He made frequent references to "capitalism," and led up to the "war clouds appearing on the eastern horizon."

The preparatory commission, Litvinoff told his fellow-delegates, merely was decorative, and had accomplished nothing.

"All past war history," he said, "shows one continual increase in the armed forces of capitalist states."

BARRICADES HOME, FIGHTS GUN BATTLE TO AVOID ARREST

Robbins, Ill., Nov. 30.—(UP)—Barricaded in his home, Clarence Orre, 30, fought a gun battle with police to avoid prosecution on a minor traffic charge.

Orre was wounded, probably fatally, and Chief of Police Bemis was shot in the left arm.

Orre was arrested for parking his car without lights. He asked to be allowed to go home and get an overcoat before going to traffic court. He locked the doors of his home and started firing. The battle lasted two hours.

Freight Rate Reduction Means Lower Cost Coal

PARTIALLY CLAD BODIES OF COUPLE FOUND SHOT IN HEAD

Milwaukee, Wis., Nov. 30.—(UP)—Partially clad bodies of Florence Sprecher and Richard Karge were found in a rooming house here last night. Both had been shot through the head.

Police believed Karge had shot his companion and then committed suicide.

Mrs. Sprecher recently lived in El Paso, Tex. She was divorced from Harold Sprecher of Jackson.

MOTHER CALMLY SAYS SHE KILLED HER LITTLE BABY

MRS. MADELINE OTTERMAN WALKS INTO COURT AT QUINCY, MASS.

TELLS JUDGE HUSBAND COULD NOT SUPPORT THE INFANT

Quincy, Mass., Nov. 30.—(UP)—With the body of her five-week old baby in her arms, Mrs. Madeline Otterman of this city, youthful mother, walked into the district court today and calmly announced she had killed her child because her husband could not support it.

The mother was summarily arraigned in district court on an infanticide charge. She pleaded not guilty and was ordered held in \$10,000 bond for hearing Friday.

According to police, Mrs. Otterman claimed she smothered her son, Stanley, with a pillow slip at her home and immediately carried the body to the courthouse.

On arriving at the courthouse, Mrs. Otterman asked Patrolman Fred B. Young, who was standing in corridor, if he thought the child was dead.

Young immediately notified Medical Examiner Fred E. Jones who shortly after pronounced the baby dead.

Bribery Indictments Against Gov. Jackson Sought to be Dismissed

Indianapolis, Ind., Nov. 30.—(UP)—Decision on the defense motion to dismiss bribery indictments against Governor Ed Jackson and two of his political associates because of technical flaws will be handed down Friday. Judge Oscar H. Montgomery announced late yesterday.

Judge Montgomery heard arguments yesterday. Gov. Jackson, George V. Coffin, republican leader, and Robert I. Marsh, Indianapolis attorney, are charged with attempting to bribe former Governor Warren T. McCray to appoint a county prosecutor favorable to the Ku Klux Klan.

The trial date is expected to be set Friday if Judge Montgomery overrules the motion.

WALKED IN SLEEP, FELL TWO STORIES

Kansas City, Mo., Nov. 30.—(UP)—"Ah dreamed Ah was awake, and when Ah woke up, Ah wished Ah was asleep," groaned Jim Reed, negro, from "a bed in a hospital here." Reed fell from a second story window when he was walking in his sleep last night. His injuries were regarded as serious.

FOUR MEN UNDER INVESTIGATION

Lubbock, Texas, Nov. 30.—(UP)—Four men were under investigation here today for the murder of Constable Lee Stegall of Plomot. The constable was found in his automobile near Plomot last night dead from bullet wounds.

The four men held here were arrested after Stegall's body was found and brought here.

FIND CRUSHED BODY OF AIR MAIL FLIER

Kendallville, Ind., Nov. 30.—(UP)—The body of Ed Osburg, Chicago-Cleveland air mail flier, killed last night when his airplane crashed during an electrical storm, was found today eight miles northeast of here.

Claims Tax Burdens In America Much Lighter Than In Any Other Well Governed Country

CURRENT GANG WAR IN CHICAGO ACTIVE AS EVER

100TH AND 101ST BOMBINGS OF THE YEAR ARE RECORDED

ONE WRECKS ALLEGED GAMBLING HOUSE IN HEART OF GHETTO

Chicago, Nov. 30.—(UP)—Two bombings—the ninth and tenth of the current gang war and the 100th and 101st of the year in Chicago—gave warning today that despite rumors of an impending peace agreement among the gunmen, warfare would continue until the treaty was signed.

One bomb wrecked an alleged gambling house in the heart of the Ghetto and caused a panic among hundreds of passers-by. It was the second time within a week that the place, owned by Dave Glass, had been damaged by explosives.

Early this morning a combined barber shop and gambling house, operated by Reynolds Bros., was damaged by a bomb.

Greatest interest centered today, however, on the death of Carmen Ferro, head of a moonshine gang, who had been scheduled to face trial Monday on a federal liquor charge. He was not known to police but his federal record was extensive, and it was believed he had been killed by former associates to prevent him from turning state's evidence.

Possible federal intervention in gang affairs, through investigation of the Ferro slaying, was seen today. Ferro was supposedly a wealthy manufacturer, and his family and neighbors apparently knew little of his under cover activities. A dozen persons, including a woman, were arrested at a still said to be one of several which Ferro owned.

Meanwhile, Al Capone, most powerful of the gambling gang leaders, remained in seclusion. Some of his friends asserted he had gone hunting and others intimated he was endeavoring simultaneously to arrange an inter-gang peace and strengthen his position for more bitter war if his plans for settlement of the gang disputes failed.

HAIL RUNESTONE AS OLDEST NATIVE DOCUMENT HERE

PROF. H. R. HOLLAND ADDRESSES 2,000 NORTHWEST CITIZENS AT ALEXANDRIA

RUNESTONE FOUND 29 YEARS AGO IN TIMBERED WILDERNESS AT BASE OF TREE

Alexandria, Minn., Nov. 30.—(UP)—Hailing the Kensington Runestone as the oldest native document in American history, Prof. H. R. Holland, historian and archaeologist of the University of Wisconsin last night addressed two thousand northwest citizens, as the climax to a campaign inauguration through which plans for a memorial were laid.

At a banquet which followed an afternoon rally, several northwest citizens outlined plans to launch a campaign for a fund of \$300,000 with which to erect a monument at the site near here where the Runestone was discovered.

The relic was found 29 years ago in a timbered wilderness near Kensington, embedded in the roots of a tree at least 50 years old.

The runics have been translated in America and Europe to indicate that a party of eight Swedes and 22 Norwegians were there on an exploration trip in the year 1362.

During the rally and banquet on Tuesday, the famous rock formation inscribed with curious runic characters, occupied a position of honor guarded by members of the local national guard company.

LATE HOURS, 'HIP POCKET PARTIES,' INCREASE MORTALITY

Pine City, Minn., Nov. 30.—(UP)—Late hours, "hip pocket parties," scanty outdoor attire and ill-advised dieting fads have combined in the past ten years to place tuberculosis mortality rate among girls of the 15 to 19-year-old group more than 75 per cent higher than that of boys, Dr. S. A. Meyerding of St. Paul, state Christmas Seal campaign director, said here last night.

In the 20 to 24-year-old group dependable figures disclose that women have a death rate from the same disease 20 to 25 per cent higher than the men, the speaker said.

GIVES NEW FORD SPECIFICATIONS

After six months of "saying nothing but saving wood," Henry Ford today announced the specifications of the new Ford car which succeeds his famous Model T. A bare listing of those specifications presents a picture of an automobile that in performance, appearance and mechanical features has heretofore been associated with a considerably higher price class.

Unusual speed and acceleration are among the outstanding features of the new car. It is announced as being able to make 55 to 60 miles an hour, with ease. In recent tests it has made even more without difficulty. What is more important, it is stated that when traveling at such speeds, it holds the roads easily, and with comfort to driver and passengers. It is also stated with equal positiveness, however, that it performs in an equally spectacular manner on bad roads. In its design, Mr. Ford has held to his original idea of a car which can meet all conditions and types of roads.

Appreciating the constantly increasing importance of acceleration, the Ford Motor Company has given a great deal of study to this feature of the new car. In high gear tests with two passengers in a Tudor sedan it has shown an acceleration of from 5 to 25 miles an hour in 8 1/2 seconds.

The new Ford car also introduces a new type of four-wheel brakes. An exclusive Ford development, they are of the mechanical, shoe-expanding type, and are self centering. The brake pedal and the hand brake each operates all four brakes. It is stated that this is the most reliable and simplest type of four-wheel brake, and also the easiest to adjust, all adjustments being made from the outside without removing any parts.

An engine that is practically vibrationless develops 40 horsepower at 2,200 revolutions per minute. The low revolution speed in ratio to the high horsepower is illustrative of the unusual efficiency of the engine. Also, it means longer life, the lower engine speed insuring less wear on engine parts. The low revolution speed is also a substantial factor in lessening vibration. The bore is 3 7/8 inches, stroke 4 1/4 inches. The unusually large crankshaft which is both statically and dynamically balanced, weighs 28 pounds. This balancing, combined with the lightness of aluminum alloy pistons, further combine to reduce vibration and increase riding and driving comfort and safety.

In addition to freedom from vibration, it is announced that the car is unusually quiet, a great deal of attention having been paid to this feature by the Ford engineers. In the engine, the timing gears are made of bakelized fabric, which is much quieter than metal. The cams on the camshaft have been so designed as to prevent valve clinking.

The coachwork of the car is as distinctive as its performance. There is a noticeable European touch in line and contour. It is not only designed for exterior beauty, but has as well the interior roominess, convenience and luxurious appointments to be found in much higher priced automobiles. On an instrument-board of satin-finished pickle are mounted the speedometer, gasoline gauge, ammeter and ignition lock, with a flash-light in the center. The new military-type sun visor, with crown roof and round corners, are features of the closed models. Unusually narrow pillars and very wide doors and windows give maximum vision. Nickled radiator shell and headlamps further accentuate the exterior attractiveness, while choices of four colors in pyroxylin finish are offered.

Simplicity in design has also been

COMPARISON MADE ON INCOME OF THE PEOPLE

PROF. WM. ANDERSON OF UNIVERSITY OF MINNESOTA MADE ADDRESS

MORE THAN EIGHT BILLION DOLLARS COLLECTED IN VARIOUS KINDS OF TAXES

Minneapolis, Minn., Nov. 30.—(UP)—Tax burdens, when compared to the \$89,000,000,000 income of the people of the United States are much lighter in America today than in any other well governed country of the world, Prof. William Anderson, head of the department of political science of the U. of M., today told members of the Minnesota League of Women Voters.

Professor Anderson said that more than \$8,000,000,000 is collected in state, federal and local taxes annually, and that one-eleventh of the entire income of the people of the United States goes to support the functions of government.

FUNERAL RITES FOR REV. B. LONGELY

St. Paul, Nov. 30.—(UP)—Funeral rites for Rev. Benjamin Longely, pastor emeritus of the Central Park M. E. church, and founder of the Central church at Winona, will be held Thursday. He died at his home here Tuesday. He was 79 years old.

Rev. Mr. Longely was ordained a Methodist Episcopal minister in 1873 and received his doctor's degree at Hamline University. Although he never retired from the ministry, he had been inactive in its work since 1915.

Carried to the ignition. There is only one coil, in a waterproof case. There are no vibrators to adjust, and no exposed cables to work loose or short circuit from water. The distributor is located in a readily accessible position on top of the engine.

Centrifugal water pump, large radiator and airplane propeller-type fan provide a cooling system, which makes the car very difficult to overheat, except from abuse, such as running without enough oil, or dry radiator.

From 20 to 30 miles to a gallon of gasoline, depending upon driving speed, is the gasoline consumption announced. Feed to carburetor is by gravity.

The oiling system, also a distinctive Ford design, is a combination of pump, splash and gravity feed. The new transmission is of the selective sliding gear type, with standard shift, three speeds forward and one reverse. The main shaft runs on ball bearings, the countershaft on roller bearings and the reverse idler on bronze bearings, a power-saving design unusual on light cars. Shifting of gears is noiselessly and easily accomplished at the pressure of a finger.

Multiple dry-disc clutch, rear axle of three-quarter floating type housed in electrically welded steel, and spiral bevel gear drive are interesting features. The axle shafts carry none of the weight of the car, the wheels running on roller bearings on the housing. Newly developed springs of the transverse semi-elliptic type and hydraulic shock-absorbers prevent excessive up and down movement and remove side sway.

Irreversible steering gear, which prevents shocks from being transmitted back to the hands of the driver, makes handling exceptionally easy. Maximum steering safety is further provided by a gear housing of welded steel forgings, and a steel tube steering column welded into the housing, making a sturdy and exceptionally safe one piece unit.

Ford designed steel spoke wheels, completely welded into a one-piece assembly, are provided.

There are six models of the new car. They are the phaeton, roadster, sport coupe, coupe, Tudor sedan and Fordor sedan.

The Walter P. Tyrholm Company, local Ford dealer, are preparing for a public reception this Friday, when models of the new line will be shown in photographs and charts.

2 DROWNED AS CAR CRASHES THROUGH BRIDGE

New Bedford, Mass., Nov. 30.—(UP)—A man and his wife were drowned and their two daughters barely escaped with their lives today when their automobile crashed through a bridge and plunged into the Padanaran river.

The dead: Arthur Holden, 46, of South Dartmouth.

Mrs. Arthur Holden, 42.

CARETAKER TELLS STORY IN REMUS TRIAL

WILLIAM MUELLER RECALLED TO WITNESS STAND FOR CROSS EXAMINATION

"WE ARE NOT CONCERNED WITH TRUTH OR FALSITY OF THINGS TOLD DEFENDANT"

By PAUL W. WHITE
(United Press Staff Correspondent)

Court Room, Cincinnati, O., Nov. 30.—William Mueller, the stolid caretaker at the George Remus mansion on Price Hill, was recalled to the witness stand for cross examination at the Remus trial today. Before Mueller began his testimony, Judge Chester R. Shook ruled in favor of the state on a point which had been hard fought by Charles P. Taft II, county prosecutor.

Remus' defense on the charge of murdering his wife, Imogene, has been that of insanity and he has introduced evidence concerning causes which might have impaired his mentality.

Judge Shook ruled today that only evidence communicated to Remus was admissible. In other words if A saw any perjury on the part of Mrs. Remus and told B about it, only A could testify at the trial.

"We are not concerned with the truth or falsity of the things told the defendant," the court ruled. "We are only concerned in what was told him and the effect upon his mind."

At the opening of court, Judge Shook reiterated his demand that the jurors be kept segregated and that they be not permitted to speak even to members of their families except in the presence of court officers.

The trial still was a drawing card. Every seat was filled at 9:30 A. M. Mueller had an unhappy time of it in cross examination.

Taft brought out the fact that the caretaker once was a watchman for the Jack Daniels distillery in St. Louis.

"Were you the watchman there when Remus was 'milking' the distillery—was draining the whiskey into the building next door?"

Charles H. Elston, co-counsel for defense, objected.

The question was stricken out and in the ensuing argument Remus interposed with the advice to Taft that "you should acquaint yourself with the facts." The court instructed him not to make any more such remarks, "across the table."

Mueller denied he ever had been indicted in connection with the Daniels case.

CONVICTS REFUSE TO TESTIFY AT CORONER'S INQUEST

Folsom Prison, Calif., Nov. 30.—(UP)—Six ringleaders in the Thanksgiving day mutiny at Folsom prison which cost the lives of 13 men refused to testify at the coroner's inquest today.

Each man stood on his constitutional right not to give incriminating evidence that might be used against him.

The four guards who were held as hostages during a night of rioting in the main cell block of the prison were then called to the witness stand.

The inquest was held in the library of the prison where the rioting started and where 10 of the 11 convicts killed met death.

Less than a dozen paces away was the death house and the gallows on which the state will demand that the six ringleaders pay the extreme penalty for heading the revolt.

NORTHWEST AIMS TO TAKE ADVANTAGE OF SOUTHERN ROADS

TESTIMONY PRESENTED AT I. C. C. HEARING AT MINNEAPOLIS

TWIN CITIES VITALLY INTERESTED IN FREIGHT RATES ON COAL

Minneapolis, Minn., Nov. 30.—(UP)—The proposed 20-cent reduction in freight rates on southern lake cargo coal, if ordered into effect, would tend to bring about nominal reductions to the consumer in the cost of commodities in the manufacture of which coal plays an important part, according to testimony presented before the Interstate Commerce commission at its hearing here today into the proposed freight rate reduction.

That the Twin Cities are vitally interested in freight rates on coal was revealed in figures presented by F. B. Townsend, director of the Minneapolis Traffic Association, who testified that 1,500,000 tons of coal of all grades are consumed annually in the homes and commercial buildings and industries of Minneapolis. St. Paul, according to figures prepared for presentation, uses a like amount.

The cost of shipping a ton of coal from the southern field, exclusive of Illinois, was \$3.30 in 1912, but increases in the freight rates ordered into effect on five different occasions, have increased the present cost to \$5.40.

The proposed reduction in the rate on lake cargo southern coal, if ordered into effect, would result in a similar reduction in the cost of other coal to consumers, it is contended by proponents of the proposed reduction.

KENTUCKY MOB LYNCHES NEGRO

SHOT DOWN AND THEN BODY MADE A FLAMING TORCH

Louisville, Ky., Nov. 30.—(UP)—Leonard Wood, negro, was lynched shortly after midnight by a mob near Jenkins, Ky., following his arrest for the murder of a mine foreman.

The negro was shot by the mob, which formed a half circle around him.

Gasoline was poured on his body and set afire by the mob. The lynching took place atop Cumberland mountain.

While the negro hung suspended the mob gathered about him and fired volley after volley of shots into his body.

A platform recently erected for dedication ceremonies of the opening of the Kentucky-Virginia highway was used as a pyre.

The mob, estimated to consist of 225 armed men, sawed the bars of the jail at Whitesburg where Woods had been removed for safe keeping.

A chain was placed about the neck of the negro and he was dragged to a motor car and taken to Jenkins where the lynching occurred.

Woods had been accused of killing Hershel Deaton, 35, foreman of the Elkhorn Coal Corp., at Fleming.

U. S. Chamber of Commerce Approves Tax Cut of \$400,000,000

Washington, Nov. 30.—(UP)—The U. S. Chamber of Commerce will inform each congressman Monday that its membership has voted overwhelmingly for a \$400,000,000 tax cut.

The chamber in a statement defended its right to express judgment on the size of the tax reduction. The statement obviously was intended as a reply to White House pronouncements that President Coolidge regarded the \$400,000,000 figure as ridiculously high.

5 YEAR OLD GIRL FATALLY INJURED BY AUTOMOBILE

Medford, Minn., Nov. 30.—(UP)—Glenys Lee, 5-year-old daughter of Mr. and Mrs. Ross Lee, was fatally injured Tuesday, when she was struck by an automobile driven by Harold Titan.

Unusual speed and acceleration are among the outstanding features of the new car. It is announced as being able to make 55 to 60 miles an hour, with ease. In recent tests it has made even more without difficulty. What is more important, it is stated that when traveling at such speeds, it holds the roads easily, and with comfort to driver and passengers. It is also stated with equal positiveness, however, that it performs in an equally spectacular manner on bad roads. In its design, Mr. Ford has held to his original idea of a car which can meet all conditions and types of roads.

Appreciating the constantly increasing importance of acceleration, the Ford Motor Company has given a great deal of study to this feature of the new car. In high gear tests with two passengers in a Tudor sedan it has shown an acceleration of from 5 to 25 miles an hour in 8 1/2 seconds.

The new Ford car also introduces a new type of four-wheel brakes. An exclusive Ford development, they are of the mechanical, shoe-expanding type, and are self centering. The brake pedal and the hand brake each operates all four brakes. It is stated that this is the most reliable and simplest type of four-wheel brake, and also the easiest to adjust, all adjustments being made from the outside without removing any parts.

An engine that is practically vibrationless develops 40 horsepower at 2,200 revolutions per minute. This low revolution speed in ratio to the high horsepower is illustrative of the unusual efficiency of the engine. Also, it means longer life, the lower engine speed insuring less wear on engine parts. The low revolution speed is also a substantial factor in lessening vibration. The bore is 3 7/8 inches, stroke 4 1/4 inches. The unusually large crankshaft which is both statically and dynamically balanced, weighs 28 pounds. This balancing, combined with the lightness of aluminum alloy pistons, further combine to reduce vibration and increase riding and driving comfort and safety.

In addition to freedom from vibration, it is announced that the car is unusually quiet, a great deal of attention having been paid to this feature by the Ford engineers. In the engine, the timing gears are made of bakelized fabric, which is much quieter than metal. The cams on the camshaft have been so designed as to prevent valve clacking.

The coachwork of the car is as distinctive as its performance. There is a noticeable European touch in line and contour. It is not only designed for exterior beauty, but has as well the interior roominess, convenience and luxurious appointments to be found in much higher priced automobiles. On an instrument-board of satin-finished nickel are mounted the speedometer, gasoline gauge, ammeter and ignition lock, with a flash-light in the center. The new military-type sun visor, with crown roof and round corners, are features of the closed models. Unusually narrow pillars and very wide doors and windows give maximum vision. Nickled radiator shell and headlamps further accentuate the exterior attractiveness, while choices of four colors in pyroxylin finish are offered.

Simplicity in design has also been

COMPARISON MADE ON INCOME OF THE PEOPLE

PROF. WM. ANDERSON OF UNIVERSITY OF MINNESOTA MADE ADDRESS

MORE THAN EIGHT BILLION DOLLARS COLLECTED IN VARIOUS KINDS OF TAXES

Minneapolis, Minn., Nov. 30.—(UP)—Tax burdens, when compared to the \$89,000,000,000 income of the people of the United States are much lighter in America today than in any other well governed country of the world, Prof. William Anderson, head of the department of political science of the U. of M., today told members of the Minnesota League of Women Voters.

Professor Anderson said that more than \$8,000,000,000 is collected in state, federal and local taxes annually, and that one-eleventh of the entire income of the people of the United States goes to support the functions of government.

FUNERAL RITES FOR REV. B. LONGELY

St. Paul, Nov. 30.—(UP)—Funeral rites for Rev. Benjamin Longely, pastor emeritus of the Central Park M. E. church, and founder of the Central church at Winona, will be held Thursday. He died at his home here Tuesday. He was 79 years old.

Rev. Mr. Longely was ordained a Methodist Episcopal minister in 1873 and received his doctor's degree at Hamline University. Although he was retired from the ministry, he had been inactive in its work since 1915.

Carried to the ignition. There is only one coil, in a waterproof case. There are no vibrators to adjust, and no exposed cables to work loose or short circuit from water. The distributor is located in a readily accessible position on top of the engine.

Centrifugal water pump, large radiator and airplane propeller-type fan provide a cooling system which makes the car very difficult to overheat, except from abuse, such as running without enough oil, or dry radiator.

From 20 to 30 miles to a gallon of gasoline, depending upon driving speed, is the gasoline consumption announced. Feed to carburetor is by gravity.

The oiling system, also a distinctive Ford design, is a combination of pump, splash and gravity feed. The new transmission is of the selective sliding gear type, with standard shift, three speeds forward and one reverse. The main shaft runs on ball bearings, the countershaft on roller bearings and the reverse idler on bronze bearings, a power-saving design unusual on light cars. Shifting of gears is noiselessly and easily accomplished at the pressure of a finger.

Multiple dry-disc clutch, rear axle of three-quarter floating type housed in electrically welded steel, and spiral bevel gear drive are interesting features. The axle shafts carry none of the weight of the car, the wheels running on roller bearings on the housing. Newly developed springs of the transverse semi-elliptic type and hydraulic shock-absorbers prevent excessive up and down movement and remove side sway.

Irreversible steering gear, which prevents shocks from being transmitted back to the hands of the driver, makes handling exceptionally easy. Maximum steering safety is further provided by a gear housing of welded steel forgings, and a steel tube steering column welded into the housing, making a sturdy and exceptionally safe one piece unit.

Ford designed steel spoke wheels, completely welded into a one-piece assembly, are provided.

There are six models of the new car. They are the phaeton, roadster, sport coupe, coupe, Tudor sedan and Fordor sedan.

The Walter P. Tyrholm Company, local Ford dealer, are preparing for a public reception this Friday, when models of the new line will be shown in photographs and charts.

2 DROWNED AS CAR CRASHES THROUGH BRIDGE

New Bedford, Mass., Nov. 30.—(UP)—A man and his wife were drowned and their two daughters barely escaped with their lives today when their automobile crashed through a bridge and plunged into the Padanarum river.

The dead: Arthur Holden, 46, of South Dartmouth.

Mrs. Arthur Holden, 42.

CARETAKER TELLS STORY IN REMUS TRIAL

WILLIAM MUELLER RECALLED TO WITNESS STAND FOR CROSS EXAMINATION

"WE ARE NOT CONCERNED WITH TRUTH OR FALSITY OF THINGS TOLD DEFENDANT"

By PAUL W. WHITE
(United Press Staff Correspondent)

Court Room, Cincinnati, O., Nov. 30.—William Mueller, the stolid caretaker at the George Remus mansion on Price Hill, was recalled to the witness stand for cross examination at the Remus trial today. Before Mueller began his testimony, Judge Chester R. Shook ruled in favor of the state on a point which had been hard fought by Charles P. Taft II, county prosecutor.

Remus' defense on the charge of murdering his wife, Inogene, has been that of insanity and he has introduced evidence concerning causes which might have impaired his mentality.

Judge Shook ruled today that only evidence communicated to Remus was admissible. In other words if A saw any perjury on the part of Mrs. Remus and told B about it, only A could testify at the trial.

"We are not concerned with the truth or falsity of the things told the defendant," the court ruled. "We are only concerned in what was told him and the effect upon his mind."

At the opening of court, Judge Shook reiterated his demand that the jurors be kept segregated and that they be not permitted to speak even to members of their families except in the presence of court officers.

The trial still was a drawing card. Every seat was filled at 9:30 A. M. Mueller had an unhappy time of it in cross examination.

Taft brought out the fact that the caretaker once was a watchman for the Jack Daniels distillery in St. Louis.

"Were you the watchman there when Remus was 'milking' the distillery—was draining the whiskey into the building next door?"

Charles H. Elston, co-counsel for defense, objected.

The question was stricken out and in the ensuing argument Remus interposed with the advice to Taft that "you should acquaint yourself with the facts." The court instructed him not to make any more such remarks, "across the table."

Mueller denied he ever had been indicted in connection with the Daniels case.

CONVICTS REFUSE TO TESTIFY AT CORONER'S INQUEST

Folsom Prison, Calif., Nov. 30.—(UP)—Six ringleaders in the Thanksgiving day mutiny at Folsom prison which cost the lives of 13 men refused to testify at the coroner's inquest today.

Each man stood on his constitutional right not to give incriminating evidence that might be used against him.

The four guards who were held as hostages during a night of rioting in the main cell block of the prison were then called to the witness stand.

The inquest was held in the library of the prison where the rioting started and where 10 of the 11 convicts killed met death.

Less than a dozen paces away was the death house and the gallows on which the state will demand that the six ringleaders pay the extreme penalty for heading the revolt.

NORTHWEST AIMS TO TAKE ADVANTAGE OF SOUTHERN ROADS

TESTIMONY PRESENTED AT I. C. C. HEARING AT MINNEAPOLIS

TWIN CITIES VITALLY INTERESTED IN FREIGHT RATES ON COAL

Minneapolis, Minn., Nov. 30.—(UP)—The proposed 20-cent reduction in freight rates on southern lake cargo coal, if ordered into effect, would tend to bring about nominal reductions to the consumer in the cost of commodities in the manufacture of which coal plays an important part, according to testimony presented before the interstate commerce commission at its hearing here today into the proposed freight rate reduction.

That the Twin Cities are vitally interested in freight rates on coal was revealed in figures presented by F. B. Townsend, director of the Minneapolis Traffic Association, who testified that 1,500,000 tons of coal of all grades are consumed annually in the homes and commercial buildings and industries of Minneapolis, St. Paul, according to figures prepared for presentation, uses a like amount.

The cost of shipping a ton of coal from the southern field, exclusive of Illinois, was \$3.30 in 1912, but increases in the freight rates ordered into effect on five different occasions, have increased the present cost to \$5.40.

The proposed reduction in the rate on lake cargo southern coal, if ordered into effect, would result in a similar reduction in the cost of other coal to consumers, it is contended by proponents of the proposed reduction.

KENTUCKY MOB LYNCHES NEGRO

SHOT DOWN AND THEN BODY MADE A FLAMING TORCH

Louisville, Ky., Nov. 30.—(UP)—Leonard Wood, negro, was lynched shortly after midnight by a mob near Jenkins, Ky., following his arrest for the murder of a mine foreman.

The negro was shot by the mob, which formed a half circle around him.

Gasoline was poured on his body and set afire by the mob.

The lynching took place atop Cumberland mountain.

While the negro hung suspended the mob gathered about him and fired volley after volley of shots into his body.

A platform recently erected for dedication ceremonies of the opening of the Kentucky-Virginia highway was used as a pyre.

The mob, estimated to consist of 225 armed men, sawed the bars of the jail at Whitesburg where Woods had been removed for safe keeping.

A chain was placed about the neck of the negro and he was dragged to a motor car and taken to Jenkins where the lynching occurred.

Woods had been accused of killing Hershel Deaton, 35, foreman of the Elkhorn Coal Corp., at Fleming.

U. S. Chamber of Commerce Approves Tax Cut of \$400,000,000

Washington, Nov. 30.—(UP)—The U. S. Chamber of Commerce will inform each congressman Monday that its membership has voted overwhelmingly for a \$400,000,000 tax cut.

The chamber in a statement defended its right to express judgment on the size of the tax reduction. The statement obviously was intended as a reply to White House pronouncements that President Coolidge regarded the \$400,000,000 figure as ridiculously high.

5 YEAR OLD GIRL FATALLY INJURED BY AUTOMOBILE

Medford, Minn., Nov. 30.—(UP)—Glenys Lee, 5-year-old daughter of Mr. and Mrs. Ross Lee, was fatally injured Tuesday, when she was struck by an automobile driven by Harold Titan.

W. B. A. Meeting The W. B. A. will hold its regular meeting tomorrow night at 7:45 in the Iron Exchange hall. There will be election of officers and refreshments will be served.

First Baptist Ladies Aid Mrs. L. Schaefer will entertain the ladies aid of the First Baptist church Thursday afternoon, December 1, in the social rooms of the church. Members are urged to be present and visitors are cordially invited.

Entertain for Miss Hilda Cheney A party was given at the home of Mr. and Mrs. Fred Lyscio, 724 G. street N. E., Saturday evening in compliment of Miss Hilda Cheney. There were eighteen guests present and the evening was spent in playing five hundred and dancing after which refreshments were served.

Clara Lutheran Ladies Aid The ladies aid of Clara Lutheran church will be entertained in the church parlors Thursday afternoon at 2:30 o'clock by Mrs. A. W. And-

"California Flower"

Boudoir Pillows

The poetry of California gardens inspired these petal flower pillows. Their bright and naturalistic colors are exquisitely worked in imported permanent finish organdie that lends a delightful touch to the boudoir. Colors may be selected to suit your room decorations, if desired.

A choice selection of Rounds, Oblongs, Ovals, Hearts and Squares. Priced \$1.95 to \$3.50. Rainbows are the new note in boudoir pillows. This group includes some very handsome pieces in Rainbow colorings.

Brainerd, Minn.

The New Ford Car will sell at a SURPRISINGLY LOW PRICE

Complete details of the new car which will be
officially announced
this FRIDAY

THE MINUTE you see the pictures of the new Ford car you will be delighted with its low, smart lines and the artistic color combinations. There, you will say, is a truly modern car.

But a still greater thrill awaits you when you slip into the roomy seat behind the wheel and start away for your first ride. Then you will know that you have found the most unusual value ever offered in a low-price car.

You will like the feeling of speed and power that the new Ford gives you—the comfortable, prideful feeling that comes from having a car worthy of any occasion and equal to every emergency.

You will like the flexibility and safety of the new Ford car as you weave in and out of city traffic—its flashing pick-up as the light turns green and the sign says "Go." You will like its smooth, quiet steadiness on the open road where you can lazy along according to your mood, or do 55 and even 65 miles an hour if you desire. The new Ford has unusual speed—no doubt of that!

*A smart, low, speedy car that
has been built to endure*

The new Ford will climb hills that you never thought a low-price car would climb on high. It will pass cars that you never thought you could pass. The longest trips will seem easy, for here is a car that puts new joy in motoring.

There is still another reason why the new Ford car is the most outstanding value ever offered in a low-price car. An important three-word reason that means a great

deal to you — *endurance — durability — long life.*

The new Ford car is made to stand up under thousands upon thousands of miles of steady running over all kinds of roads. It has even more stamina than the Model T Ford because we have learned to make every part stronger and sturdier without increased weight or greatly increased cost.

Many of the Model T Ford cars are still in active service after 75,000, 100,000 and 150,000 miles. This new Ford car will do even better. In the words of Henry Ford: "It is our ambition to have every piece of machinery or non-consumable product that we turn out so strong and so well-made that no one ought ever to have to buy a second one."

*Four-wheel brakes and standard,
selective gear shift*

On the right, we are printing, for the first time, the complete details of the new Ford car. Read them over carefully, especially the paragraphs dealing with the new engine, the new bodies, the new standard, selective gear shift transmission with roller bearings, the new four-wheel brakes, the new hydraulic shock absorbers, the new mechanical design ignition, the new oiling system and the new dry-plate, multiple-disc clutch.

Then decide that whatever else you do Friday you are going to set aside at least fifteen minutes to get the full story of the new Ford car. It is more than a new automobile. It is the advanced expression of a wholly new idea in modern, economical transportation.

FEATURES OF THE NEW FORD CAR

55 TO 65 MILES AN HOUR

The new Ford has unusual speed. It will do 55 to 60 miles an hour with ease. This is a conservative statement. In many road tests it has exceeded 65 miles an hour. So well does the new car hold the road that you can travel at high speed for long stretches with a new feeling of comfort and safety. Even bad roads may be taken at a fast pace. You will be delighted too with the way the new Ford climbs the hills. You will face the steepest grades with confidence, knowing you have power and power to spare to climb them all without greatly reduced speed, without strain, or unnecessary shifting of gears.

40-HORSE-POWER ENGINE

At 2200 revolutions per minute, the new Ford four-cylinder engine develops 40 horse-power. This r. p. m., or revolution speed, is low for such power and shows that the engine is unusually efficient. It also means long life, for the lower the speed of the engine, the less the wear on its parts. The bore is 3 3/4 inches and the stroke 4 1/4 inches. (S. A. E. and N. A. C. C. rating for license purposes, 24.03 horse-power.)

REMARKABLE ACCELERATION

The new Ford is remarkably quick on the get-away. In tests in high gear, with a Tudor sedan body and two passengers, it has accelerated from 5 to 25 miles per hour in 8 1/2 seconds. This acceleration is an outstanding feature of the new Ford car.

PREVENTING VIBRATION

The engine in the new Ford is practically vibrationless. This is due in part to its lower r. p. m., the statically and dynamically balanced crankshaft, and the aluminum pistons. To insure quiet, the timing gears are made of bakelized fabric instead of metal, and the cams on the camshaft are so designed that the valve push rods follow them closely, preventing valve clicking.

GASOLINE ECONOMY

You will get from 20 to 30 miles per gallon of gasoline, depending on the speed at which you drive. Feed to the carburetor is by gravity from a unique welded one-piece steel tank integral with the cowl.

UNIQUE NEW OILING SYSTEM

The oiling system is distinctly Ford in design, being a combination of pump, splash, and gravity feed. The pump delivers the oil to the valve chamber, from which it flows by gravity feed to the main bearings of the crankshaft. An oil dipper is provided on each connecting rod bearing cap, so that the force of rotation of the crankshaft drives oil into the connecting rod bearings, as well as splashing oil over all working parts within the engine. This is a simple but entirely dependable system, assuring proper lubrication of each bearing and each cylinder without pressure.

PERFECTED COOLING

The new Ford car has a centrifugal water pump, and large radiator. The fan runs on the pump shaft and is made according to airplane propeller design. It is exceedingly difficult to make the new Ford engine overheat; only abuse will do it, such as running without enough oil.

IGNITION SYSTEM OF NEW DESIGN

The ignition system of the new Ford is unique in mechanical design, extremely simple, and will give the car owner exceptional performance with a minimum of trouble. There is only one coil, in a water-proof case. The distributor is located on top of the engine where it is clean and easily accessible. Connections are made to the spark-plugs by short bronze springs. The coincidental lock on the new Ford is placed in the ignition circuit. It not only replaces the regular ignition switch, but in the "off" position grounds the entire circuit. From the switch to the distributor a steel cable protects the primary current wire, this wire being grounded to the distributor casing, thereby making it impossible to wire around the device. The new generator is of the power-house type.

STANDARD, SELECTIVE GEAR SHIFT

The new Ford transmission is of the selective sliding gear type, with standard shift. It has three speeds forward and one reverse. The main shaft runs on ball bearings, the countershaft on roller bearings, and the reverse idler on a bronze bearing. This is the highest type of bearing mounting and is unusual on light cars. All gears are made of heat-treated chrome alloy steel. You will be delighted with the easy, noiseless shifting of gears in this new transmission. You can go from one to another easily, silently, with the pressure of a finger.

EXCEPTIONALLY EASY TO STEER

The steering gear on the new Ford car is irreversible. Shocks are not transmitted back to the hands of the driver. You need not grip the wheel tightly. A light touch is enough to guide the car safely. Large steering wheel is made of steel, covered with hard rubber. Light switch and horn button are conveniently located on top of wheel.

NEW FOUR-WHEEL BRAKES

The brakes on the new Ford car are an exclusive Ford development. They are of the mechanical, internal expanding-shoe type and are self-centering. This is the most reliable and the simplest type of four-wheel brake and the easiest to adjust. All adjustments are made from the outside without removing any parts. No special tools are needed. Uniform, even adjustment on each

wheel is quickly and easily obtained. The brake pedal and the hand lever each operate all four brakes. Total braking surface is 168 square inches. All brake working parts are cadmium plated to make them rust-proof.

MULTIPLE DRY-DISC CLUTCH

The clutch in the new Ford is of the multiple dry-disc type, which is the most reliable. It is also the easiest to operate, for it takes hold gently and smoothly. It has four driving discs and five driven discs.

COMFORTABLE TRANSVERSE SPRINGS

The springs are of the transverse, semi-elliptic type, designed and built for the new Ford. This type, which was used in the Model T, was adapted to the new car because no better spring type could be found. They are built of the finest spring steel, and the leaves are wide and thin. Each spring is built up of varying sizes and number of leaves to give proper flexibility and to meet riding requirements of the different body types. The size and number of leaves used in these springs is one of the reasons why the new Ford is such a comfortable car. The construction of the transverse springs also contributes to the safety and efficiency of the 4-wheel brakes.

HYDRAULIC SHOCK ABSORBERS

The finest type hydraulic shock absorbers are standard equipment on the new Ford. These combine with the low center of gravity, the minimum unsprung weight, and the easy riding qualities of the transverse springs to make the new Ford one of the most comfortable cars on the road today.

THREE-QUARTERS-FLOATING REAR AXLE

The rear axle of the new Ford is of the three-quarters-floating type. The axle housings are made entirely of steel, built up by welding steel forgings to steel tubings. The differential housing, to which these housings are bolted, is made of rolled channel steel. The axle shafts carry none of the weight of the car, the wheels running on roller bearings on the housing. All bearings in the rear axle are of the roller type. Drive is by spiral bevel gear.

FORD-DESIGNED STEEL-SPOKE WHEELS

Original design and great strength are two features that mark the unique, Ford-designed steel-spoke wheels. Each wheel is assembled by welding, and becomes one piece of metal. Spokes cannot work loose. Each spoke has a tensile strength of 4000 pounds. Outside spokes do not cross, so that the wheels are easy to clean. There are only 30 spokes in each wheel.

BEAUTIFUL NEW LOW BODY LINES

There is a bit of the European touch in the coachwork and contour of the new Ford. Bodies are steel. Fenders are of the full crown type. Appointments and hardware are of a luxurious type seldom found in a low-price car. Upholstery is of rich, durable material. Cushions are deep and easy. Door handles and window lifts are fully nickel-plated. Speedometer, gasoline gauge, ammeter and ignition lock are mounted on an instruments panel of satin-finish nickel, illuminated by a lamp in center. Headlamps and radiator shell are fully nickel-plated. Closed cars have the new military-type sun visor and crown roof. Great care has been taken in designing the new Ford to provide generous seat space and ample leg room. Clear, unobstructed vision is assured at front by unusually narrow pillars and at sides by specially designed doors with large windows.

CHOICE OF FOUR COLORS

The color combinations used on the new Ford are especially artistic and attractive. Four color choices are offered for each body type—a most unusual feature in a low-price car. Purchasers may choose any one of the following colors—Niagara Blue, Arabian Sand, Dawn Gray, and Gun Metal Blue. Belt and reveals are finished in contrasting colors, with attractive striping. The finish is pyroxylin lacquer, one of the finest and most enduring finishes for automobile bodies. It is not affected by heat or cold, withstands all kinds of weather conditions, and is not easily marred or scratched. The lustre actually improves with washing.

A QUIET CAR

In designing the new Ford, every precaution was taken to prevent squeaks, rattles and drumming sounds. Body panels and frame sections are welded and riveted together wherever there is possibility of the body weaving. In all structural details the new Ford bodies are built to afford the utmost quietness and comfort.

GREASE GUN LUBRICATION

The chassis of the new Ford is lubricated by the pressure grease gun system, the simplest and most effective method of lubrication.

WEDNESDAY, NOVEMBER 30, 1927

A SPLENDID EDITION

THE Bemidji Daily Pioneer published a 32-page women's edition on November 26 and the example of feminine journalism is something to be proud of.

General news articles, editorials, clubs and rural department, general features, sports, school fraternal organizations, churches, etc., all were covered in signed matter by the ladies.

Miss Mabel F. Rice, managing editor, in a foreword, described the journalistic adventure of the ladies.

"The members of the Bemidji Civic and Community club present to you their interpretation of the relationship of the women to their community. Just for today you are viewing the local world and glimpsing the larger world through our eyes. We hope you will enjoy the novelty as we have enjoyed it. For it is but a novelty. Neither the staff nor the club presumes for a moment to 'show the men a thing or two.' A newspaper published daily by a staff of club women would lack flavor and would soon become monotonous. But we consider this opportunity to dip for a day into the nation's foremost institution—the American Press—a privilege that we could never afford to pass up.

"It has been great sport. We have learned much. Never again will we call in at 1:30 to ask the city editor to put a club notice on the front page. Never again will we call to complain that our name was omitted from a program published the previous day. Nor will we ever again ask the city editor to write up an article from a few scratchy lead pencil notes. In this brief time we have had our trials, knocks, and complaints. We have seen a bit of the hundred and one factions, thousand and one individuals a newspaper must endeavor to please. We realize that this is all just a part of the daily routine and ritual of the newspaperman. And so next Monday morning we return to our own tasks and professions with profound respect for the people who are in the organized business of presenting the news to the public.

SNOW FENCES

A MOTOR drive south or west and northwest of town gives indication of the extended use of snow fencing. Experience of drifts in past seasons has enabled the Highway department to place sections of the fencing in the proper places.

The Brainerd Country club has quite a line of the fence, being on the northside of Trunk Highway No. 2. Trunk Highway No. 19 from the junction on and up north is liberally protected by snow fence.

Motorists of our section, business men of the city, farmers out of town, appreciate everything C. M. Babcock and his men are doing to better winter transportation.

Sure Relief for Sore Throat

Quicker than Gargling

Why suffer pain, soreness or discomfort while waiting for slow-acting gargles to give relief when a physician's prescription called Thoxine is guaranteed to relieve in 15 minutes? It acts on germ theory. One swallow taken internally goes direct to the cause. Contains no chloroform, iron or other harmful drugs. Safe and pleasant for the whole family. Always ask for Thoxine—much better than gargles and patent medicines. 35c, 60c, and \$1.00. Sold under money-back guarantee of quick relief. Sold by Skaug Drug Co. and all good drug stores.

A SPLENDID EDITION

THE Bemidji Daily Pioneer published a 32-page women's edition on November 26 and the example of feminine journalism is something to be proud of.

General news articles, editorials, clubs and rural department, general features, sports, school fraternal organizations, churches, etc., all were covered in signed matter by the ladies.

Miss Mabel F. Rice, managing editor, in a foreword, described the journalistic adventure of the ladies.

"The members of the Bemidji Civic and Community club present to you their interpretation of the relationship of the women to their community. Just for today you are viewing the local world and glimpsing the larger world through our eyes. We hope you will enjoy the novelty as we have enjoyed it. For it is but a novelty. Neither the staff nor the club presumes for a moment to 'show the men a thing or two.' A newspaper published daily by a staff of club women would lack flavor and would soon become monotonous. But we consider this opportunity to dip for a day into the nation's foremost institution—the American Press—a privilege that we could never afford to pass up.

"It has been great sport. We have learned much. Never again will we call in at 1:30 to ask the city editor to put a club notice on the front page. Never again will we call to complain that our name was omitted from a program published the previous day. Nor will we ever again ask the city editor to write up an article from a few scratchy lead pencil notes. In this brief time we have had our trials, knocks, and complaints. We have seen a bit of the hundred and one factions, thousand and one individuals a newspaper must endeavor to please. We realize that this is all just a part of the daily routine and ritual of the newspaperman. And so next Monday morning we return to our own tasks and professions with profound respect for the people who are in the organized business of presenting the news to the public.

SNOW FENCES

A MOTOR drive south or west and northwest of town gives indication of the extended use of snow fencing. Experience of drifts in past seasons has enabled the Highway department to place sections of the fencing in the proper places.

The Brainerd Country club has quite a line of the fence, being on the northside of Trunk Highway No. 2. Trunk Highway No. 19 from the junction on and up north is liberally protected by snow fence.

Motorists of our section, business men of the city, farmers out of town, appreciate everything C. M. Babcock and his men are doing to better winter transportation.

BREAKS OF GAME ROBBED U. S. C. OF WIN

CONTROVERSY OVER FORWARD PASS IN GAME

QUESTION ONE WHICH RILEY OF NOTRE DAME KNOCKED DOWN

Chicago, Nov. 30.—(UP)—John C. Schommer, umpire in the Notre Dame-Southern California football game last Saturday, defended himself today against charges of having cost U. S. C. the game through an error.

The charges were made by Captain Morley Drury of U. S. C. in a campus speech at Los Angeles last night in which he said the team "had traveled a long distance to be robbed of victory." He later explained he meant "robbed" by the breaks of the game and not by an official.

The controversy centered around a U. S. C. forward pass which Riley of Notre Dame knocked down. There was some question as to whether it was an intercepted or an incomplete pass. The ball went out of bounds behind Notre Dame's goal line.

Schommer ruled the pass was incomplete, not intercepted, and therefore ruled the play a scoreless touchback instead of a safety which would have given U. S. C. two points and victory.

Schommer's statement follows:

"Riley intercepted the pass in question, reversing in the air, and was facing his goal line when he landed on his feet. He took several steps toward his goal and was struck by several U. S. C. players on about the four-yard line. The ball shot forward, struck between the goal line and the end line and rolled across the end line, where a California player fell on it.

"I overruled cries that Riley was tackled in the end zone and that it was a touchdown, because I was certain Riley had been tackled on the 3 or 4-yard line and that it was either a safety or a touchback.

"I called the captains and the field judge for agreement on the facts. Notre Dame's captain dissented and this I overruled.

"When Riley caught the ball he was facing his goal and I could not see the ball. If Notre Dame had possession and control of the ball, then Riley gave the impetus that sent it across the goal line. (This would have made it a safety). If he did not have possession and control, then it was a touchback.

"I asked the field judge who was facing the play and he said 'not possession and control.' I then gave the ruling of touchback."

Los Angeles, Nov. 30.—Captain Morley Drury today slightly tempered his declaration that the University of Southern California had been "robbed" of a football victory over Notre Dame last Saturday at Chicago.

"I had no intention of questioning the integrity of any official," Drury said today. "I merely wanted to point out that a terrible mistake had robbed us of a well-earned victory.

"I guess, though, that a decision like that is a 'break' in the game."

At a campus meeting following return of the team from Chicago last night, Drury assured the students U. S. C. would go into the University of Washington game Saturday determined to win.

Seemingly about to end his remarks, Drury burst out with:

"After all is said and done, we feel that we travelled a long distance to be robbed of a victory."

Coach Howard Jones, who followed Drury, said he believed the officials had erred in a ruling which held Riley of Notre Dame had blocked and not intercepted a U. S. C. forward pass which was later recovered by a Trojan behind the Irish goal line. Had the officials held the pass intercepted the play would have been scored as a safety, thus giving U. S. C. two points and an 8-7 victory.

South Bend, Ind., Nov. 30.—"The official ruling has always been final so far as I've been concerned," Coach Knute Rockne of Notre Dame said today in commenting on charges of Captain Morley Drury that Southern California had lost to Notre Dame because of an error.

"However, I suppose Drury is entitled to his opinion," he added.

LOW TEMPERATURES IN NORTH STATE

Hibbing, Minn., Nov. 30.—(UP)—Temperatures dropped 30 degrees during the night, to register 18 below zero here this morning, setting a new record for the season.

The Arrowhead country, after suffering unusually severe weather during the month, is covered with a blanket of snow which in places has drifted to a depth of ten feet.

Highways generally are open, however, and motor bus traffic has been kept moving.

WADENA BOWLERS DEFEAT BRAINERD

"Ben-Hur" Largest and Most Costly

Opening of Stage, Screen or Arena. The story of a Jewish prince, Judah, son of Ithamar, and his extraordinary adventures in the many lands of the Graeco-Roman dominion two thousand years ago, are the theme of that monumental \$4,000,000 picture, "Ben-Hur," now showing at the Lyceum.

This picture was made under the management of the celebrated producer and theatre owner, Marcus Loew, and is an even greater film than was made by his co-religionist, Adolph Zukor, who did so much for the earlier Jewish history in "The Ten Commandments."

Constantly Passing On

The world's death rate is estimated at 48 a minute, 97,920 a day, or 35,740,800 a year.

BREAKS OF GAME ROBBED U. S. C. OF WIN

CONTROVERSY OVER FORWARD PASS IN GAME

QUESTION ONE WHICH RILEY OF NOTRE DAME KNOCKED DOWN

Chicago, Nov. 30.—(UP)—John C. Schommer, umpire in the Notre Dame-Southern California football game last Saturday, defended himself today against charges of having cost U. S. C. the game through an error.

The charges were made by Captain Morley Drury of U. S. C. in a campus speech at Los Angeles last night in which he said the team "had travelled a long distance to be robbed of victory." He later explained he meant "robbed" by the breaks of the game and not by an official.

The controversy centered around a U. S. C. forward pass which Riley of Notre Dame knocked down. There was some question as to whether it was an intercepted or an incomplete pass. The ball went out of bounds behind Notre Dame's goal line.

Schommer ruled the pass was incomplete, not intercepted, and therefore ruled the play a scoreless touchback instead of a safety which would have given U. S. C. two points and victory.

Schommer's statement follows:

"Riley intercepted the pass in question, reversing in the air, and was facing his goal line when he landed on his feet. He took several steps toward his goal and was struck by several U. S. C. players on about the four-yard line. The ball shot forward, struck between the goal line and the end line and rolled across the end line, where a California player fell on it.

"I overruled cries that Riley was tackled in the end zone and that it was a touchdown, because I was certain Riley had been tackled on the 3 or 4-yard line and that it was either a safety or a touchback.

"I called the captains and the field judge for agreement on the facts. Notre Dame's captain dissented and this I overruled.

"When Riley caught the ball he was facing his goal and I could not see the ball. If Notre Dame had possession and control of the ball, then Riley gave the impetus that sent it across the goal line. (This would have made it a safety). If he did not have possession and control, then it was a touchback.

"I asked the field judge who was facing the play and he said 'not possession and control.' I then gave the ruling of touchback."

Los Angeles, Nov. 30.—Captain Morley Drury today slightly tempered his declaration that the University of Southern California had been "robbed" of a football victory over Notre Dame last Saturday at Chicago.

"I had no intention of questioning the integrity of any official," Drury said today. "I merely wanted to point out that a terrible mistake had robbed us of a well-earned victory.

"I guess, though, that a decision like that is a 'break' in the game."

At a campus meeting following return of the team from Chicago last night, Drury assured the students U. S. C. would go into the University of Washington game Saturday determined to win.

Seemingly about to end his remarks, Drury burst out with:

"After all is said and done, we feel that we travelled a long distance to be robbed of a victory."

Coach Howard Jones, who followed Drury, said he believed the officials had erred in a ruling which held Riley of Notre Dame had blocked and not intercepted a U. S. C. forward pass which was later recovered by a Trojan behind the Irish goal line. Had the officials held the pass intercepted the play would have been scored as a safety, thus giving U. S. C. two points and an 8-7 victory.

South Bend, Ind., Nov. 30.—"The official ruling has always been final so far as I've been concerned," Coach Knute Rockne of Notre Dame said today in commenting on charges of Captain Morley Drury that Southern California had lost to Notre Dame because of an error.

"However, I suppose Drury is entitled to his opinion," he added.

"Ben-Hur" Largest and Most Costly
Clipping of Stage, Screen or Arena
The story of a Jewish prince,
Judas, son of Ithamar, and his ex-
traordinary adventures in the many
lands of the Graeco-Roman dominion
two thousand years ago, are the
theme of that monumental \$4,000-
000 picture, "Ben-Hur," now show-
ing at the Lyceum.

This picture was made under the
management of the celebrated pro-
ducer and theatre owner, Marcus
Loew, and is an even greater film
than was made by his co-religionist,
Adolph Zukor, who did so much for
the earlier Jewish history in "The
Ten Commandments."

Constantly Passing On
The world's death rate is estimated
at 68 a minute, 97,920 a day, or 35-
740,800 a year.

**Special for
Friday & Saturday
Only**

It takes something pretty unusual to bring men, women and children from the four corners of Crow Wing, Cass, and Aitkin counties in the number that will be here Friday and Saturday. But the popularity of the new Ford car and the bargains we are offering in boys' knee pants suits, sweaters, and shoes, would populate a much larger store than ours, at the end of a 20 mile detour.

EPWORTH LEAGUE RALLY DECEMBER 2

Young People From Six Localities
Will Gather at Methodist
Church, Brainerd

SUPPER AT 6:30 P. M.

Work of Sub-District Will be Out-
lined for Year at Meeting to
Start at 7:45 P. M.

More than 100 young people from
Hill City, Pine River, Aitkin, Deer-
wood, Crosby and Brainerd will be
in attendance at an Epworth League
rally at the Methodist church here
next Friday evening, December 2,
from 6:30 to 9:30 o'clock.

The rally supper for the young
people will be served at 6:30 p. m.,
at which time greetings will be ex-
changed and short speeches given.
Reports will be received also on the
work accomplished by each league
during the past year.

At 7:45 p. m. the services will be
held in the audience room of the
church to which the public is in-
vited. Addresses are scheduled to be
given by speakers from Duluth, and
the work of the sub-district will be
outlined for the year.

Duluth, Minn., Nov. 30. — (U.P.)—
Inheritance tax of \$116,513.88 on
the \$1,225,000 estate of the late Dr.
William J. Conan, Duluth and Mil-
waukee resident, was paid to the St.
Louis county treasurer yesterday.

American Legion Committee Meeting
A committee meeting of the Amer-
ican Legion was held at the court-
house last evening to make arrange-
ments for their annual New Years
eve dance.

BOWL

for

What Ails You

Mothers, Do This—

When the children cough, rub Mus-
terole on their throats and chests. No
telling how soon the symptoms may de-
velop into croup, or worse. And then's
when you're glad you have a jar of
Musterole at hand to give prompt relief.

As first aid, Musterole is excellent.
Keep a jar ready for instant use.
It is the remedy for adults, too. Re-
lieves sore throat, bronchitis, tonsillitis,
croup, stiff neck, asthma, neuralgia,
headache, congestion, pleurisy, rheu-
matism, lumbago, pains and aches of
back or joints, sprains, sore muscles,
chilblains, frosted feet and colds of the
chest (it may prevent pneumonia).

To Mothers: Musterole is also
made in milder form for
babies and small children.
Ask for Children's Musterole.

Better than a mustard plaster

First Congregational Church Mis- sionary Society

The Missionary society of the First
Congregational church will meet
Thursday afternoon at the home of
Mrs. E. F. Gates, 209 North Bluff
Ave. Mrs. Irma C. Hartley will di-
rect the study from Chapter II of "A
Straight Way toward Tomorrow." Ladies
are requested to meet promp-
tly at 3 o'clock.

COLD WEATHER Will Soon Be Here

Now is the time to have the at-
tice finished up—or the storm
doors fitted.

Let us care for the odd repairs.

DRIVER RECEIVES STIFF SENTENCE

A. A. Anderson Gets Jail, \$300 Fine and Forbidden to Drive for Two Years

IN DISTRICT COURT

Found Guilty by Jury of Driving Automobile While Intoxicated

Amandus Andrew Anderson found guilty by a district court jury of the charge of driving an automobile while intoxicated was fined \$300 and sentenced to four months in the county jail with an additional four months if the fine is not paid. Judge Bert Fessler imposed sentence this morning. In addition, Anderson was forbidden to drive a motor vehicle for the next two years.

Verdicts have been returned in four civil case actions in district court this week. A verdict was returned for the plaintiff to the amount of \$100 in the case of Louis Mikulich vs. Mirau Brothers. The jury brought in a verdict for the defendant in the case of Leo Wollon vs. Grace Hardy.

The jury last night returned a verdict in favor of the plaintiffs in the actions of Mark Buchanan and Margaret J. Buchanan vs. Wentworth Hayes and Tennie M. Hayes. Mark Buchanan was awarded damages amounting to \$300.50 while Margaret J. Buchanan received damages amounting to \$1112.50. The case was that of an automobile accident.

One hundred and twenty-five students of the civics class of the Brainerd high school were in attendance today in the court room. The case being heard is that of George Alexander vs. Ostrand and Hallett, a co-partnership, consisting of Peter M. Ostrand, now deceased, by Fred H. Klawon, administrator of his estate and E. W. Hallett.

Judge Bert Fessler, presiding judge, paid honors to the work of County Attorney Walter F. Wieland when he stated to the jury and the court audience yesterday that in his experience on the bench in 18 counties he has never found a county attorney who has gone so nearly by the books as Mr. Wieland and who has been so fair and yet so very thorough in his prosecution.

Methodist Esther Circle No. 1

The Esther Circle No. 1 of the Methodist church will meet at the home of Mrs. O. C. Skauge, 201 Kingwood street, Thursday afternoon.

CARD OF THANKS

We wish to thank friends, neighbors, and relatives, employees of the Kroff mine, Crosby, for their sympathy and kindness shown us during our recent bereavement, the death of husband and father, Jacob Hill, and all those who contributed flowers.

MRS. JACOB HILL, and family.

LONEY'S BARBER SHOP

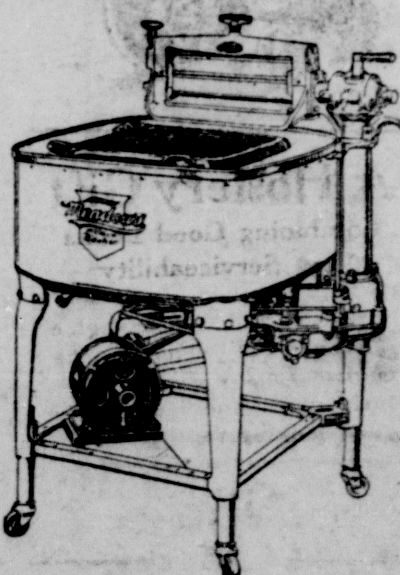

We wish to announce to the public the opening of the Barber Shop in the First National Bank Building.

This Barber Shop has served the public for so many years it is hardly necessary to say that under this new management the public will again be well served and the best of workmen at all times employed, specializing in ladies' hair cutting in addition to all other first class barber service.

We solicit the patronage of the public and promise that our work will be of the highest class of workmanship.

Respectfully,
J. A. LONEY,
Manager.

Do a Week's Wash
FREE
With a Meadows

Know the advantages of a tub that's 2 gallons bigger; of the smooth, glossy Bakelite impeller that won't wear rough in 100 years—that impels the greatest water action ever seen in a washing machine.

Just call 906-J. We will be glad to demonstrate.

ELKS MEET THURSDAY

Social Committee Arranges Excellent Program for First Meeting of December

The social committee of the Brainerd Elks lodge has arranged for an entertainment and refreshments at the first meeting of December, to be held this Thursday evening at the Elks Temple.

The last meeting of November brought out a large attendance and Exalted Ruler R. G. Jenkins and Secretary John J. Cummins expect to duplicate it tomorrow night.

The committee on Elks memorial services, A. C. Mraz chairman, will make a report. These services will be held at the Elks Temple on Sunday afternoon, December 4, at 3 o'clock, and the public is cordially invited to attend.

OUTDOOR RINK TO OPEN THIS WEEK

Ice Arena Behing Court House Was Being Flooded Today; Weather Assumes Good Ice

Club Enjoys Hike to Ahrens Hill Last Sunday; Ski Demonstration and Talk

Zero weather today gave the rink committee of the Brainerd Outdoor Sports club their first opportunity of the season to put the finishing touches to the ice arena behind the court house preparatory to the opening of the rink.

The rink was given several floodings today and with cold weather continuing good skating is assured the members this week.

Tentative plans were being discussed today for the holding of a large ice carnival at the rink soon. Discussion will take place at the next meeting of the entertainment committee relative to such a move.

The club Sunday afternoon enjoyed a hike to Ahrens hill where a skiing demonstration was given by Jake Preston.

1st Congregational Church Christmas Sale

The Christmas sale of the First Congregational church will be held next week, on Friday, December 9, in the church basement. Among the many lovely things for sale will be dress bags, basket liners, aprons, card table covers and dolls. At the food table, plum pudding and mince meat will be for sale, along with many other tempting delicacies. The Priscilla Circle will have the booth of stockings and home made candy. Lunch will be served during the afternoon.

DRIVER RECEIVES STIFF SENTENCE

**A. A. Anderson Gets Jail, \$300 Fine
and Forbidden to Drive
for Two Years**

IN DISTRICT COURT

**Found Guilty by Jury of Driving
Automobile While
Intoxicated**

Amandus Andrew Anderson found guilty by a district court jury of the charge of driving an automobile while intoxicated was fined \$300 and sentenced to four months in the county jail with an additional four months if the fine is not paid. Judge Bert Fessler imposed sentence this morning. In addition, Anderson was forbidden to drive a motor vehicle for the next two years.

Verdicts have been returned in four civil case actions in district court this week. A verdict was returned for the plaintiff to the amount of \$100 in the case of Louis Mikulich vs. Mirau Brothers. The jury brought in a verdict for the defendant in the case of Leo Walton vs. Grace Hardy.

The jury last night returned a verdict in favor of the plaintiffs in the actions of Mark Buchanan and Margaret J. Buchanan vs. Wentworth Hayes and Tennie M. Hayes. Mark Buchanan was awarded damages amounting to \$300.50 while Margaret J. Buchanan received damages amounting to \$1112.50. The case was that of an automobile accident.

One hundred and twenty five students of the civics class of the Brainerd high school were in attendance today in the court room. The case being heard is that of George Alexander vs. Ostrand and Hallett, a co-partnership, consisting of Peter M. Ostrand, now deceased, by Fred H. Klavon, administrator of his estate and E. W. Hallett.

Judge Bert Fessler, presiding judge, paid honors to the work of County Attorney Walter F. Wieland when he stated to the jury and the court audience yesterday that in his experience on the bench in 18 counties he has never found a county attorney who has gone so nearly by the books as Mr. Wieland and who has been so fair and yet so very thorough in his prosecution.

Methodist Esther Circle No. 1

The Esther Circle No. 1 of the Methodist church will meet at the home of Mrs. O. C. Skauge, 201 Kingwood street, Thursday afternoon.

CARD OF THANKS

We wish to thank friends, neighbors, and relatives, employees of the Kroft mine, Crosby, for their sympathy and kindness shown us during our recent bereavement, the death of husband and father, Jacob Hill, and all those who contributed flowers.

MRS. JACOB HILL,
and family.

LONEY'S BARBER SHOP

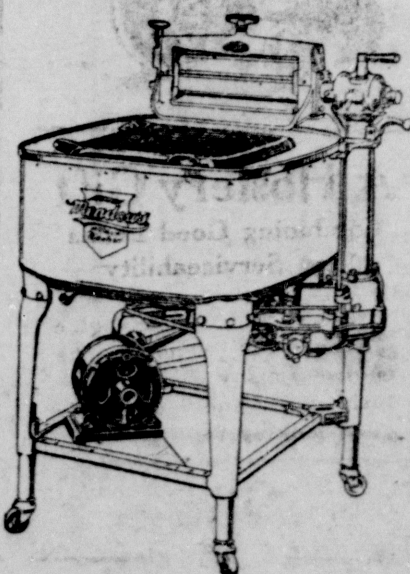

We wish to announce to the public the opening of the Barber Shop in the First National Bank Building.

This Barber Shop has served the public for so many years it is hardly necessary to say that under this new management the public will again be well served and the best of workmen at all times employed, specializing in ladies' hair cutting in addition to all other first class barber service.

We solicit the patronage of the public and promise that our work will be of the highest class of workmanship.

Respectfully,
J. A. LONEY,
Manager.

ELKS MEET THURSDAY

Social Committee Arranges Excellent Program for First Meeting of December

The social committee of the Brainerd Elks lodge has arranged for an entertainment and refreshments at the first meeting of December, to be held this Thursday evening at the Elks Temple.

The last meeting of November brought out a large attendance and Exalted Ruler R. G. Jenkins and Secretary John J. Cummins expect to duplicate it tomorrow night.

The committee on Elks memorial services, A. C. Mraz chairman, will make a report. These services will be held at the Elks Temple on Sunday afternoon, December 4, at 3 o'clock, and the public is cordially invited to attend.

OUTDOOR RINK TO OPEN THIS WEEK

**Ice Arena Behing Court House Was
Being Flooded Today; Weather
Assures Good Ice**

**Club Enjoys Hike to Ahrens Hill
Last Sunday; Ski Demonstration and Talk**

Zero weather today gave the rink committee of the Brainerd Outdoor Sports club their first opportunity of the season to put the finishing touches to the ice arena behind the court house preparatory to the opening of the rink.

The rink was given several floodings today and with cold weather continuing good skating is assured the members this week.

Tentative plans were being discussed today for the holding of a large ice carnival at the rink soon. Discussion will take place at the next meeting of the entertainment committee relative to such a move.

The club Sunday afternoon enjoyed a hike to Ahrens hill where a skiing demonstration was given by Jake Preston.

1st Congregational Church Christmas Sale

The Christmas sale of the First Congregational church will be held next week, on Friday, December 9, in the church basement. Among the many lovely things for sale will be dress bags, basket liners, aprons, card table covers and dolls. At the food table, plum pudding and mince meat will be for sale, along with many other appetizing dainties. The Priscilla Circle will have the booth of etchings and home made candy. Lunch will be served during the afternoon.

SHANGHAIED

SYNOPSIS

Hurricane Haley, skipper of the sealing schooner "Sea Sprite," kidnaps Polly, a dancer from the River-side, a dance hall on the dock of Frisco. Though Hurricane treats the girl with great severity she does not mind, and when the crew mutinies she takes his side. Led by Brady, the crew rush Haley but for some time they are held in check by his ready revolver. A dense fog surrounds the "Sea Sprite" and as the battle rages around her decks a steamer bound for San Francisco rams the schooner. The mate, Brady, who leads the mutineers, is killed and due to the efforts of Haley the schooner escapes with little damage. The steamer heaves to and awaits to see the extent of the damage.

"I know it is," whispered Polly, "but he doesn't care, he didn't even think of me when it was all over. Bronson, why does he hate me like this? Surely he must know by now that I would rather do anything than harm him. Yet he never thinks of me, hardly ever speaks to me even. Do you think he ever will forgive me?"

"My God," groaned the mate. "A man deserves to be unhappy when he has the finest girl in the world and is too damn proud to even admit that he loves her. Cheer up, kid, he will, an' some day you'll both be

happy, and look back and laugh at all this. Here he comes, now." Bronson stepped forward to meet Haley, and his tall figure hid the girl as she leant against the wheel, which had been taken by Limey.

Hurricane glanced at the wheel, and seeing Limey there he turned sharply to Bronson.

"Where's Polly?" he asked. Relieved at last of the tension that had kept her going, Polly's nerves began to crack under the terrific strain that they had gone through. Quietly, and timidly she stole forward and stood in front of him.

"What do you want?" she whispered. All his hate and years of handling tough sailors could not prevent Hurricane from showing his relief to everyone but Polly, then to hide it he turned quickly to the mate of the steamer and said, "Here's the girl I mean, if you'll wait a minute she'll be ready an' we'll be much obliged to you."

Had Hurricane been able to unbend a little all would have come out then, but too proud to admit that he wanted something that he had thrown away once, he condemned himself and another to two long years of hell, worse than any they had known before.

"The marvelous clarity of tone in the Bosch Radio gives it a decided value over every other instrument now on the market. What impressed me more than anything else was the fact that the tones were so perfect as to give the impression that I was in the same room with the artist instead of miles away. The Bosch Radio also has an advantage in that there is an utter absence of unharmonious sounds so characteristic in other instruments I have heard."

Says Ethel Barrymore, Noted Actress.

WANTED — 100 pairs of old skates as part payment on new shoe skates. Bring yours in now. Alderman-Maghan. 691-1501f

"The marvelous clarity of tone in the Bosch Radio gives it a decided value over every other instrument now on the market. What impressed me more than anything else was the fact that the tones were so perfect as to give the impression that I was in the same room with the artist instead of miles away. The Bosch Radio also has an advantage in that there is an utter absence of unharmonious sounds so characteristic in other instruments I have heard."

Says Ethel Barrymore,
Noted Actress.
